this motion you are not going to lose anything. I am not saying that you are going to gain anything. I have given out that as far as possible in fit cases exemption should be given. However properly it may be done it will not be to your entire satisfaction. There may be vexatious cases here and there where license fee ought to be exempted license fee is levied, and also cases where license fee is exempted where it ought to be levied. It will be very difficult to differentiate these cases.

So what I suggest is that the Committee may go over this and formulate their proposals. I want also to say one thing i. e., in 1113 this matter was placed before the Committee—an advisory committee attached to this Department. The only modification they suggested was with regard to the coffee hotels. They wanted to classify them into 3, namely Rs. 2, Re. 1 and Re. 0—8—0, and that was carried into effect. The Committee then did not think that they were justified in making any alteration. That is the position. Their recommendations were accepted and accordingly the 3 classifications were made. The Committee may go through the whole thing and in the light of their opinion perhaps the House may be able to formulate a scheme which will be more useful to the people concerned than simply saying that the one rupee grade should be abolished.

Mr. P. Govinda Menon *(Mulakunnathukavu):* Will you place it before the next Committee meeting?

Dr. A. R. Menon *(Minister for Rural Development):* Yes, it will be placed at the next meeting of the Committee.

Mr. A. Eachara Menon *(Chittur-Rural):* This year we had only one meeting of the Committee, and that was after the budget was sent to the Government. When will be the next meeting?

Dr. A. R. Menon *(Minister for Rural Development):* Generally it goes by routine. Nobody can look into the various things. I may tell you that as soon as the meeting is ordered to be conducted I fix a date within a space of 15 days.
